

NAP Global Network

Coordinating
Climate-Resilient
Development

Introduction
Anne Hammill
July 11, 2016

Network Basics

- **Established** in 2014 with initial financial support from Germany and the US
- **Why?** Growing importance of NAP processes, need for coordination & learning
- **Secretariat** IISD
- **Steering Committee:** Countries & donors
- **Management Team:**
- **Participants** from 35 countries

Network's niche

Coordination

NAP processes = massive coordination efforts across sectors, scales of governance, between different actors

Learning

Scaling-up and accelerating NAP processes requires learning.

What works? How to avoid potential problems and losing time?

Bilateral support

Bilateral agencies provide 3x more adaptation-related ODA than multilaterals.

How best to align and leverage this support for NAP processes?

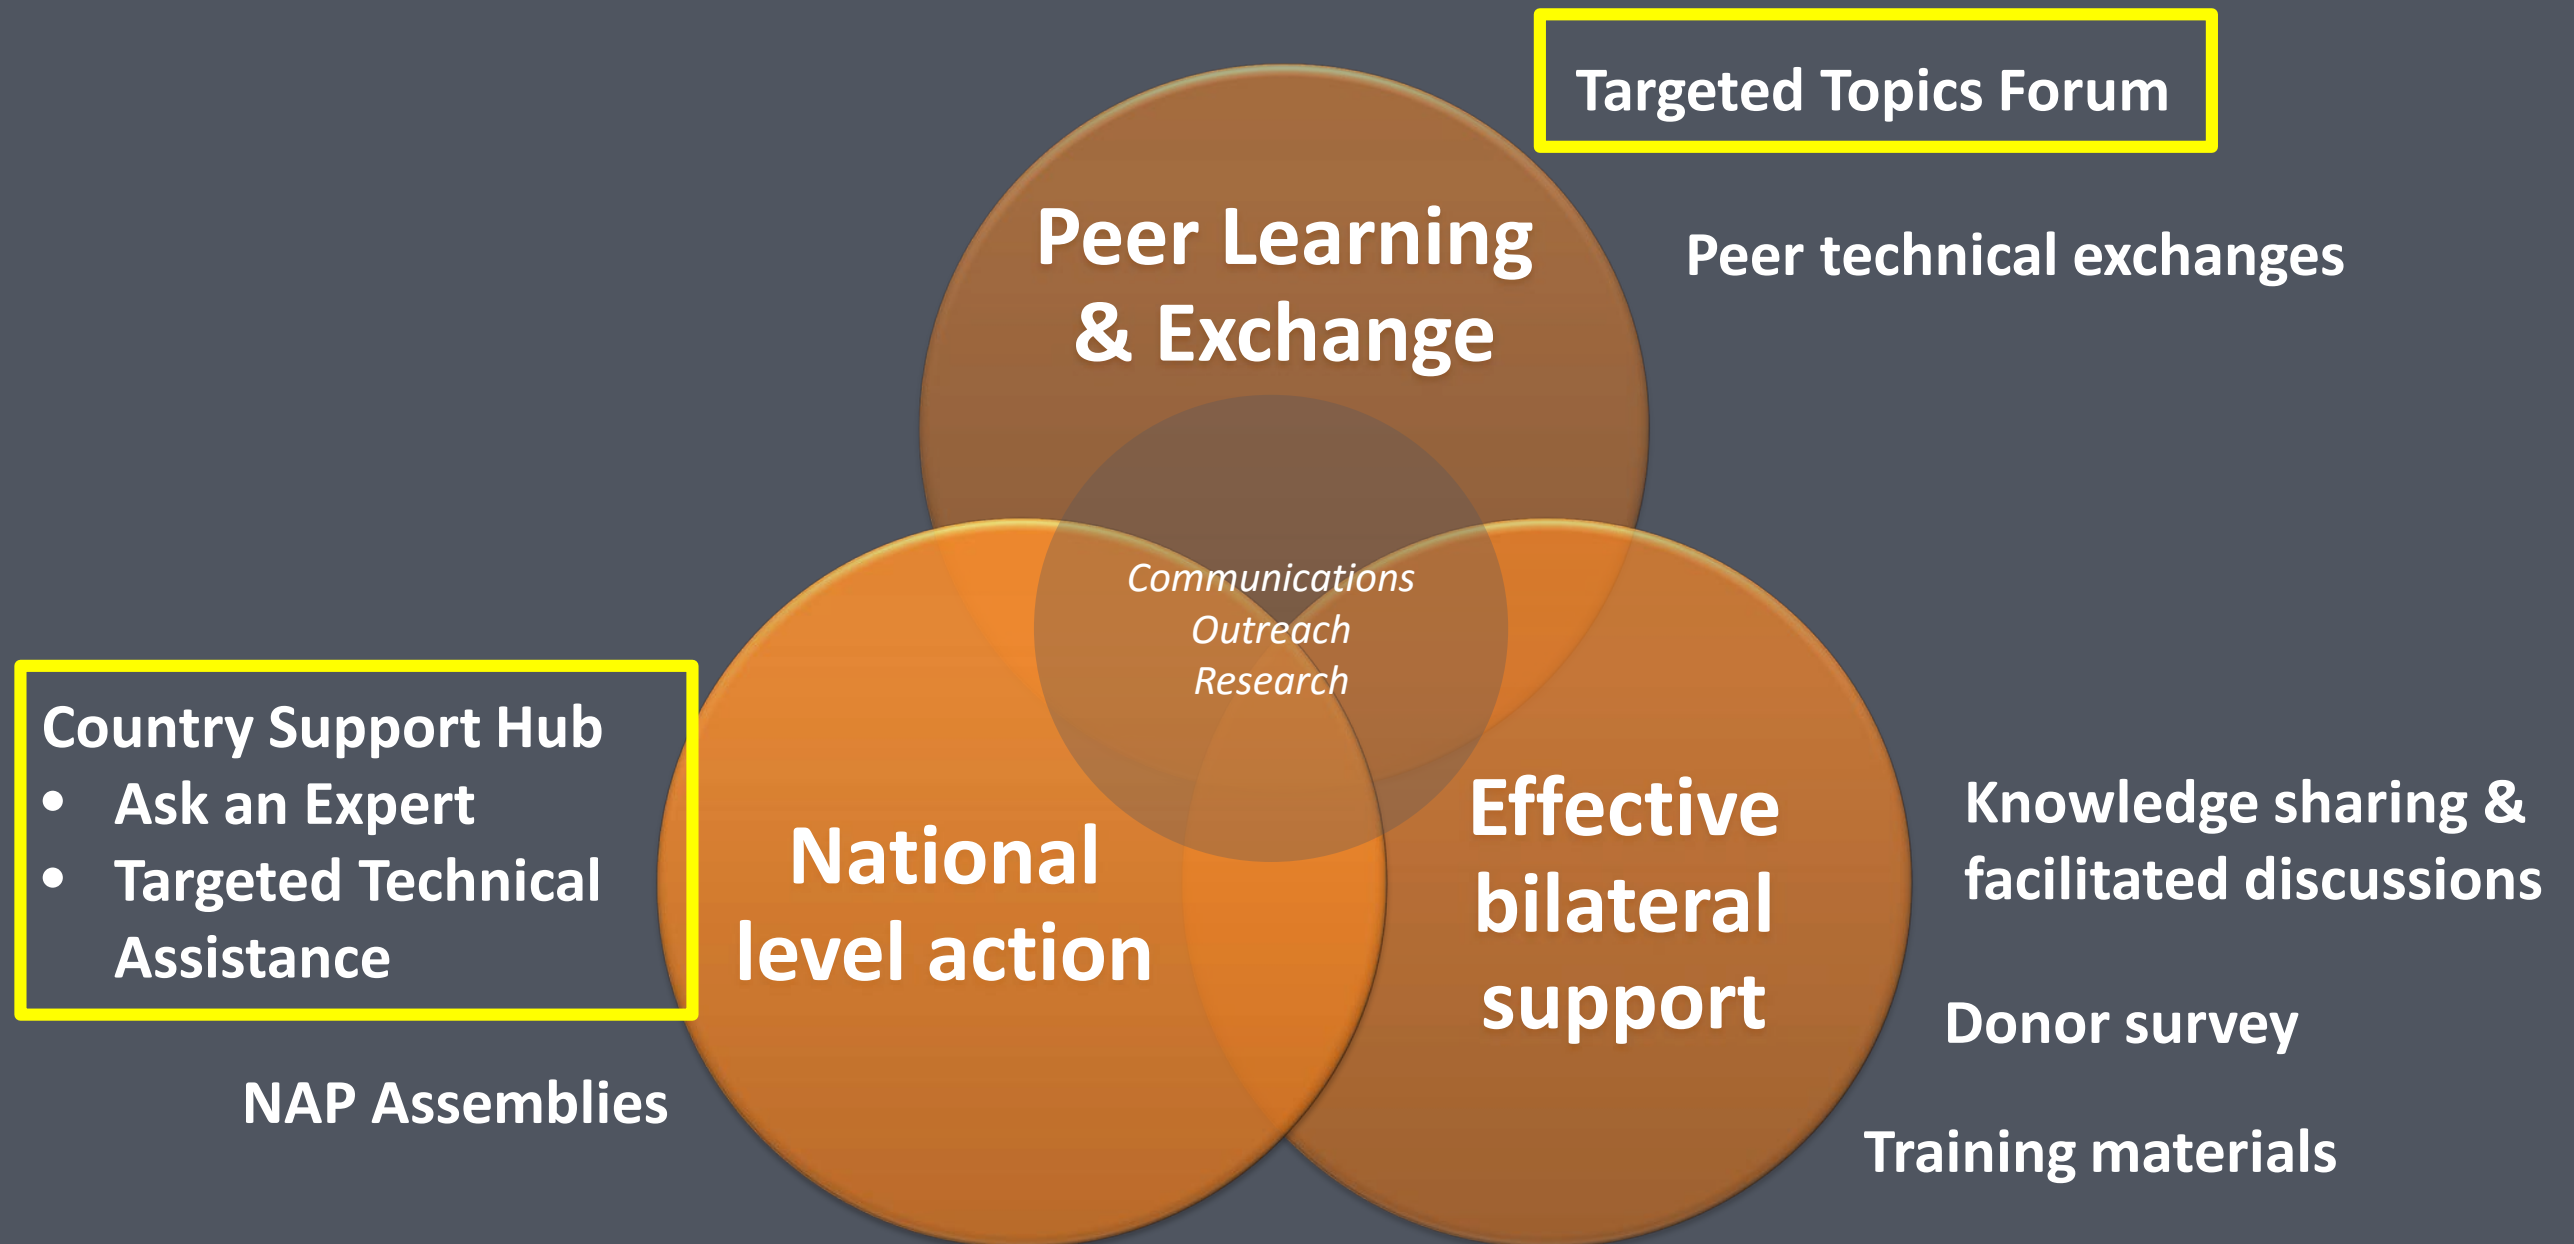

Aim & objectives

Enhance national adaptation planning and action in developing countries by...

- **Facilitating peer learning and exchange** on challenges and opportunities national adaptation planning and implementation
- **Supporting national-level action** on NAP development and implementation
- **Improving coordination of adaptation-relevant bilateral support**, ensuring it aligns with developing country priorities

Corresponding activities

Country Support Hub

Two types of support:

- 1. *Ask an Expert.*** Light touch feedback and advice on NAP issues from Secretariat, peers/participants, Roster of Experts
- 2. *Targeted Technical Support.*** Tailored, in-depth but short-term assistance whereby experts are contracted to respond to specific requests.

Underpinned by a **Roster of Experts**

Targeted Topics Forum (TTF)

- **Space to allow for honest and practical exchanges around NAP processes:**
 - *This is what we are doing*
 - *These are the challenges and questions*
 - *This is what we have learned so far*
- **Zoom in on one specific topic related to NAP, move beyond generalities**
 - High-level support for NAP process
 - Sector integration
 - Financing NAPs
- **Aim: Community of practice, South-South exchange**

TTF's cohort approach

- Group of participants from 10-15 countries
- Meet in person once a year at a TTF
- Topics that build on each other
- Sustained peer learning

TTF 1: July 2015

TTF 2: March 2016

- Albania
- Brazil
- Grenada
- Jamaica
- Kenya
- Malawi
- Peru
- Philippines
- Togo

**2015
Cohort**

TTF 1: September 2016

- Benin
- Cambodia
- Colombia
- Madagascar
- Mexico
- Samoa
- South Africa
- Tanzania
- Thailand

**2016
Cohort**

TTF's three pillars

TECHNICAL

Getting inputs from experts in the field to enhance understanding and frame discussions

RELATIONAL

Sharing experiences on these issues and learn from peers in countries from around the world

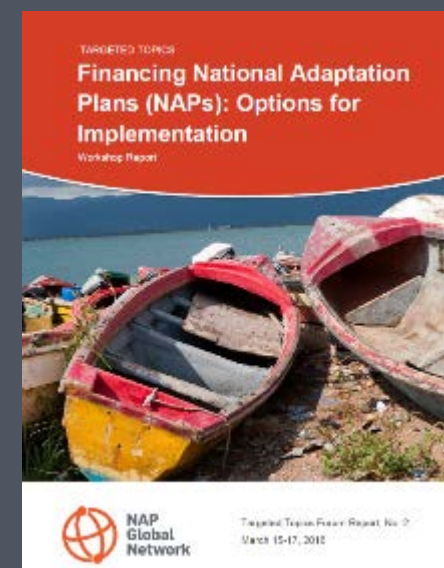

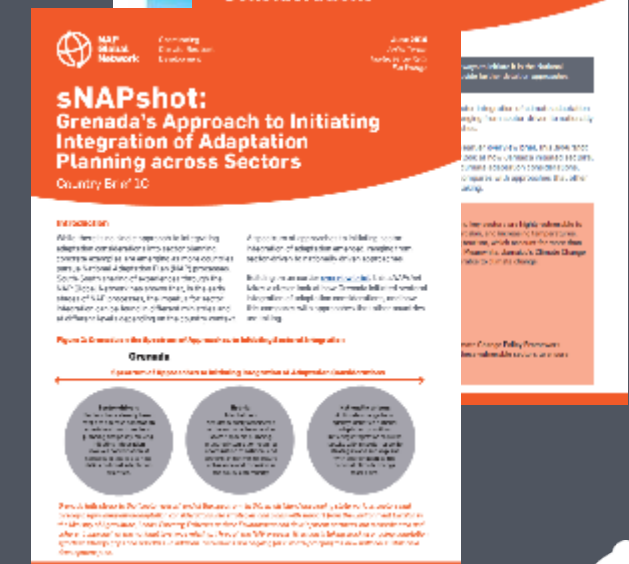

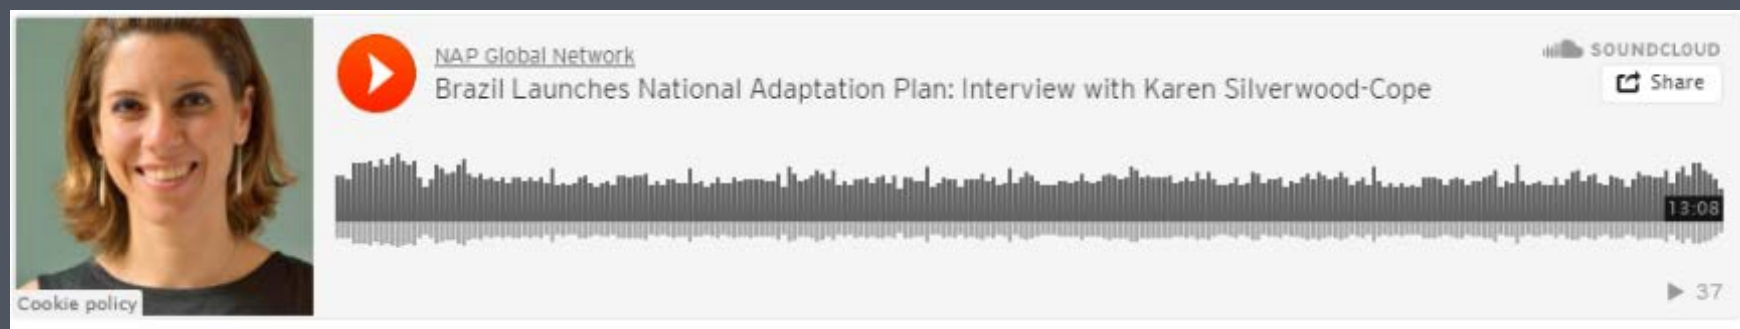

REFLEXIVE

Unpacking what these technical inputs mean in own country contexts

Network resources, outreach

- Community of peers that can call on each other
- Knowledge products that capture collective learning and share them with the broader adaptation community

#NAPGN

Financial support provided by

Federal Ministry
for Economic Cooperation
and Development

Secretariat hosted by

Modes of engagement with developing countries

General participation

- Register for participation in the Network
- Receive news re. Network activities,
- Invited to access to Network resources, services (publications, webinars, etc.)

TTF cohorts

- Two cohorts of 8-10 developing countries
- Sustained, deeper engagement countries

Targeted in-country support

- Specific requests to support a country's NAP process
- More ad hoc, deeper engagement countries
