

# FIJI

## NATIONAL ADAPTATION PLAN (NAP) APPROACH

Developing **inclusive formulation and coordination mechanisms** to integrate adaptation and disaster risk reduction into sub-national development planning processes.

The mandate for the NAP process stems from the **National Climate Change Policy** and **National Development Plan**, which provide objectives and principles to guide implementation. The NAP process is conceived as a continuous and iterative process which builds upon existing policies and integrates adaptation and disaster risk reduction into sub-national development planning processes.

## NAP PROCESS MILESTONES

- Revision of **National Climate Change Policy**.  
 Launching of new **National Development Plan** which is multi-sectoral and comprises both a 20-Year Development Strategy (2017-2036) and a comprehensive 5-Year Development Plan (2017-2021).
- Creation of new **National Disaster Risk Reduction Policy** (2017-30).  
 Accreditation of Fiji Development Bank to the Green Climate Fund to enable direct access to innovative financing.  
 Formal start of **National Adaptation Plan process** and creation of the **NAP Framework**.
- Climate Change Unit changed to **Climate Change and International Cooperation Division** and moved to the Ministry of Economy in recognition of the integrated nature of climate change and in particular the need for financial resources to build resilience.
- Creation of **Green Growth Framework**.
- Creation of **National Climate Change Policy**.
- Creation of **Climate Change Unit**.

## KEY OBSERVED & ANTICIPATED CLIMATE CHANGE IMPACTS

-  **Stronger cyclones and storms**
-  **Drought**
-  **Declining coral reef health**
-  **Storm surges**
-  **Extreme temperatures**
-  **Flooding**
-  **Sea level rise**

## PRIORITY SECTORS FOR ADAPTATION

-  **Agriculture**
-  **Infrastructure**
-  **Human settlements**
-  **Forestry**
-  **Fisheries**
-  **Coastal resources**
-  **Awareness-raising**
-  **Health**
-  **Tourism**

## KEY LESSONS ON THE NAP PROCESS

**Ms. Makereta Konrote**  
 Permanent Secretary for Economy

### INCLUSIVE PARTNERSHIPS

“ In order for the NAP process—a flexible process that helps integrate climate change into national decision-making—to be successful we recognise we must work in partnership with other government ministries and departments, civil society, donors, regional bodies, scientists, communities and the private sector.”

**Nilesh Prakash**  
 Head of Climate Change and International Cooperation  
 Ministry of Economy

### HORIZONTAL AND VERTICAL INTEGRATION

“ Climate change is a pervasive issue affecting every aspect of Fiji's development. Consequently, we support all Ministries and Departments to mainstream climate change concerns into their work. Additionally, we are ensuring adaptation is integrated into sub-national development planning processes to ensure it meets and is consistent with the needs of local communities.”

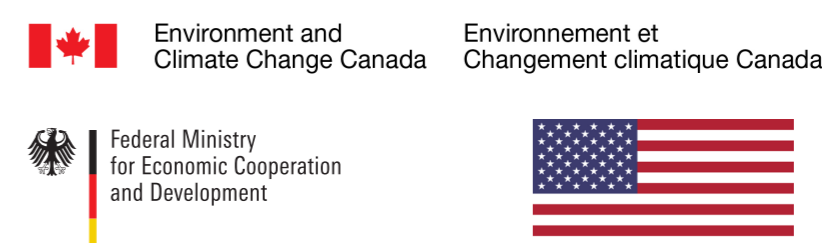

November 2017

The NAP Global Network is a group of individuals and institutions working to enhance national adaptation planning and action in developing countries. This poster is part of a series highlighting lessons emerging about the NAP process.
