Knowledge Clinics

- » An opportunity to get advice from peers and from facilitators on a specific challenge that you are facing.
- » During the session a set of “patients” will describe their challenge while a set “doctors” listen and provide advice.
- » The objective is to promote peer to peer support while helping participants come up with new approaches to tackle real-world problems.

Format

Each “peer assist” clinic consists of **three steps**:

- » The “patient” has 5 minutes to provide a detailed description of the problem or challenge they face. They should be as specific as possible to get specific feedback in response.
- » The “doctors” have 5 minutes to ask follow-up questions that are for clarification only.
- » There is then 20 minutes for doctors to provide feedback on their recommendations for this problem.

Collective story of our journey

1. Choose a picture or artefact that that brings back a memory of the NAP-GN (5min)
2. In pairs or threes, share the stories and memories (5min)
3. Put artefacts onto the collective timeline, sharing memories as we do so (20min)

Stories of Change in the NAP process

- Every country has made a lot of progress since 2015. This progress is a story.
- We've heard about the power of stories from Laurie.
- **Brainstorm:** Think of significant changes that happened in your country's NAP work since 2015. Write them down. (5 mins)
- **Draft:** Individually or in pairs, develop a story based on one of these changes. Use the model as a guide. (30 mins)

Story sharing

Give your story a title. Make it evocative!

Get into groups of 3 stories.

Share your stories: 5 mins for story telling, up to 5 mins per story of questions & answers.

Story labels

What contributed to the change you're describing?

- New technical knowledge
- Expert advice
- Peer learning
- Interacting with other countries
- Stronger institutional capacity
- Improved relationships in my country
- Applying lessons learned
- Time out to think
- Access to financial resources and support
- Other (e.g. outside changes)
